Introduction

ATNIS is a Global IT System Integration & Consulting Company with a key focus on Digital Transformation, Cloud Transformations, Cyber Security Services, Next-Generation IT infrastructure services and Manage services operations.

ATNIS implement regional technology strategies to meet specific market requirements through delivery centers spread across India, Australia & Singapore. We harness the power of digital Transformations, Cloud Migration, IT infrastructure and emerging technologies to help our clients to adapt the digital world.

Line of business

- ❖ Cloud and Infrastructure Services
- ❖ Network Integration Services
- ❖ Enterprise Application Services
- ❖ IT Procurement Supply Chains

Our Customers

- ❖ Telecom Customers
- ❖ Banking Customers
- ❖ Retails Customers
- ❖ Defense and Public Services

Area of Focus

- ❖ Telecom System Integration Services
- ❖ Cloud and Automation Services
- ❖ Manage Services

Partnerships with world leaders in IT services

500+Employees

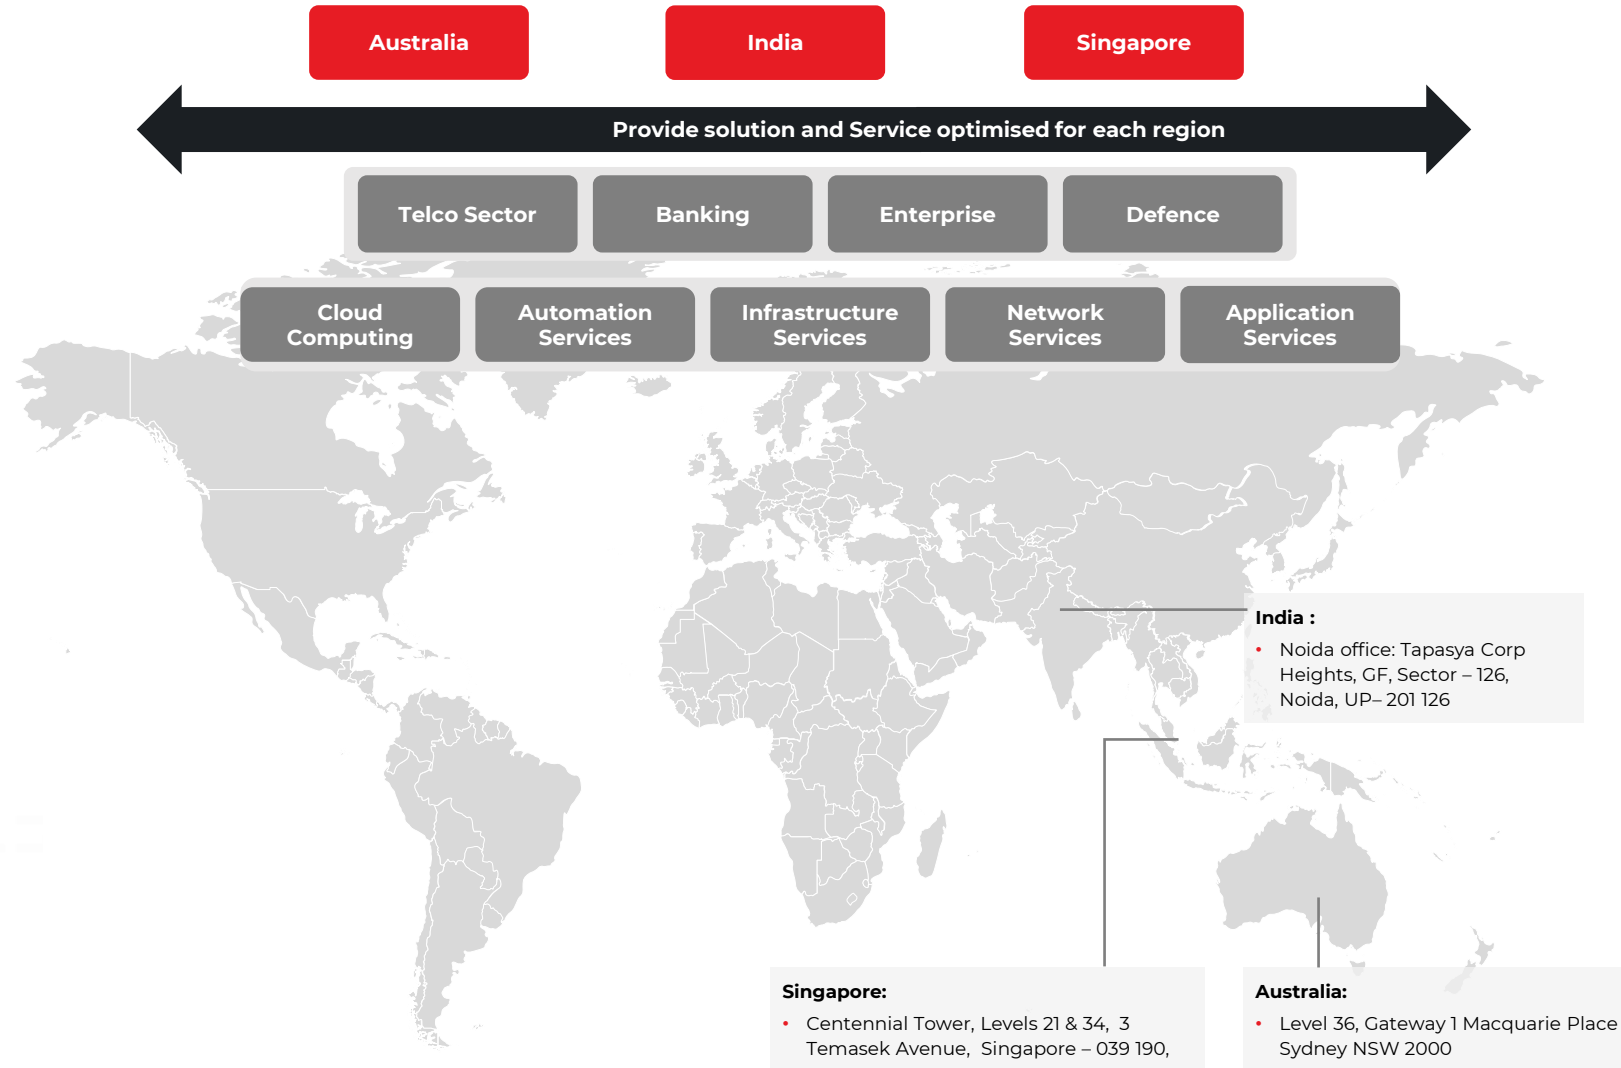

24 Global Customers

Globally unified **Technology strategy**

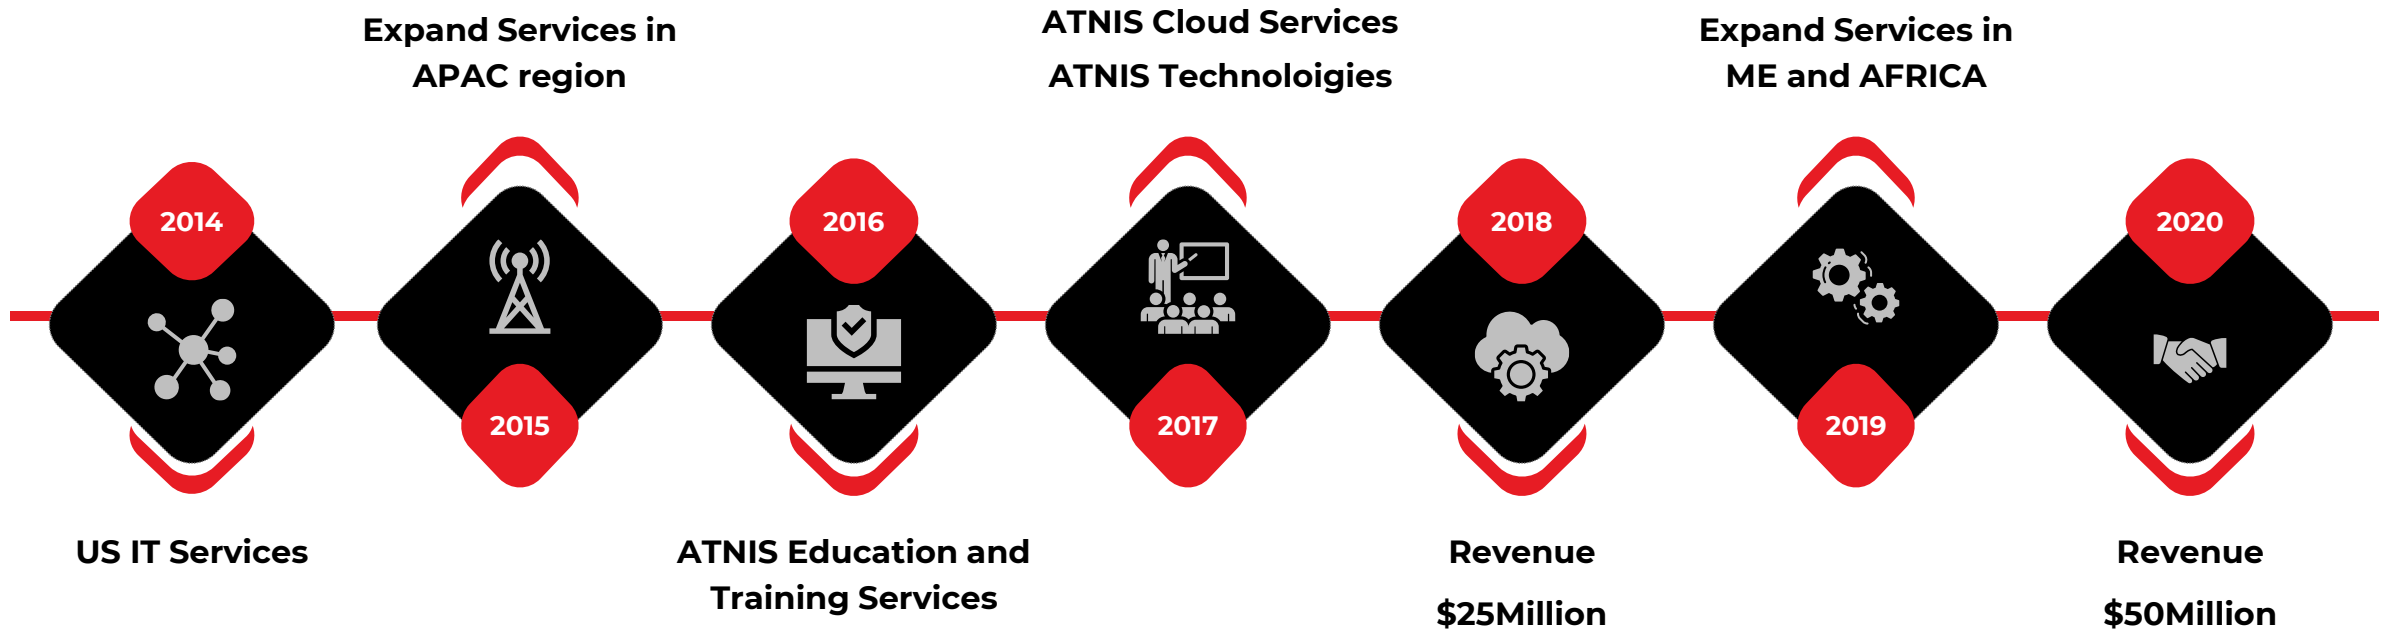

A Stronger Technology Structure for global markets

- Creating a global portfolio and regional portfolios
- Implementing regional technology strategies to meet specific market requirements

Our Journey

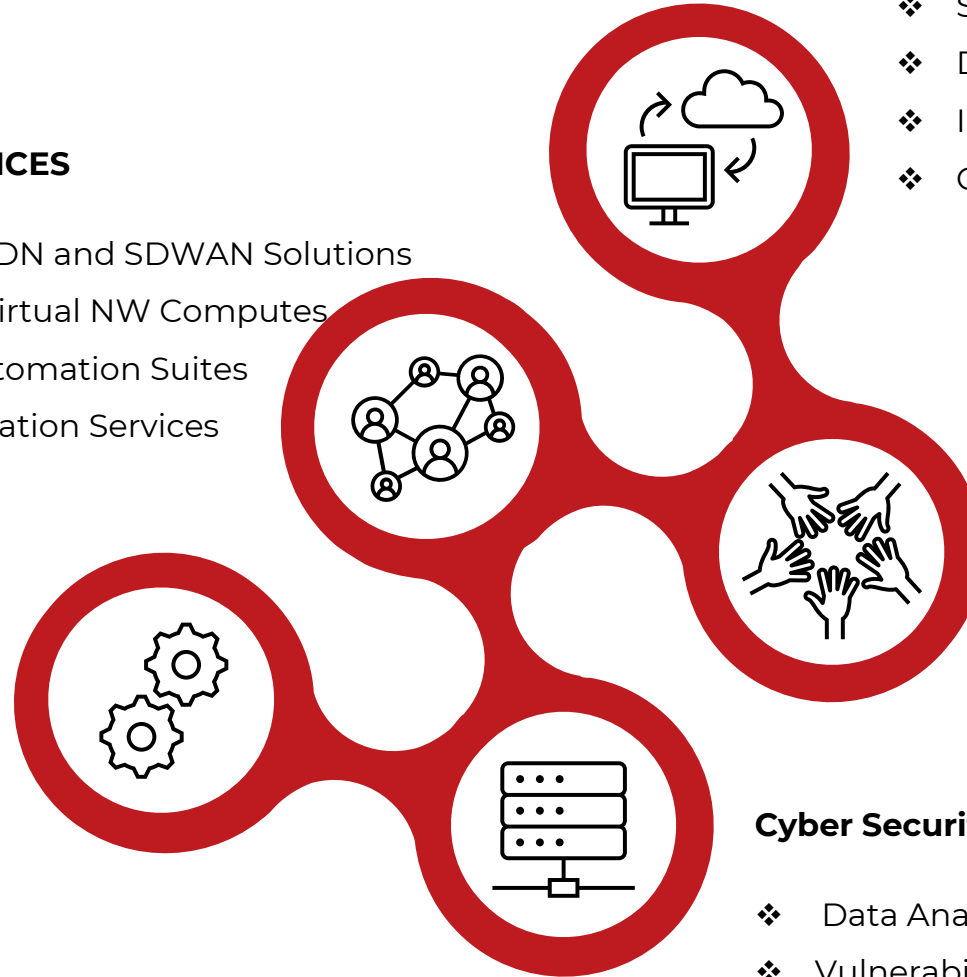

Our Focused Domains

NETWORK SERVICES

- ❖ Whitebox, SDN and SDWAN Solutions
- ❖ Cloud and Virtual NW Computes
- ❖ Network Automation Suites
- ❖ Legacy Migration Services

ENTERPRISE APPLICATION SERVICES

- ❖ Oracle Siebel CRM
- ❖ Oracle E-Business Suite
- ❖ EPM Suite for Finance
- ❖ Oracle Fusion Cloud Enterprise

INFRASTRUTURE SERVICES

- ❖ Server Consolidation & Transformation
- ❖ Database Migration and Consolidation
- ❖ Infrastructure Automation Workflows
- ❖ Containerization and Kubernetes Platforms

CLOUD SERVICES

- ❖ PAAS – AWS, Microsoft, Rackspace
- ❖ IAAS – AWS, Microsoft, GCP
- ❖ SAAS – Zoho, Salesforce, Microsoft

Cyber Security and GRC

- ❖ Data Analytics Threat Management
- ❖ Vulnerability Assessment and Patching
- ❖ SOC & Incident Response
- ❖ Governance, Risk and Compliance

Cloud Services -Simplify Cloud Transformation

Cloud-First offers a full spectrum of cloud services to help you realize the value of your investment. We know the cloud is more than just technology, so our solutions encompass the workforce and culture change needed for lasting success.

01

Cloud Engineering

Apply Cloud Engineering practices and Automation practices to tame the complexity of delivering and managing modern cloud applications.

02

Cloud Strategy and migration

We get it right using our 6 step MAC Framework- Migration Application to Cloud.

03

Cloud Platforms

Transform your business into an intelligent enterprise with solutions from AWS, AZURE, Salesforce, GCP and other leading cloud providers.

04

Infrastructure Services

Leverage hybrid cloud or reinvent your IT Infrastructure. Imagine a future where IT infrastructures can monitor themselves, predict and respond to future business needs.

05

Cloud Security

Experience and expertise in multi-cloud to help you review your governance and security, and ensure you have the right controls in place to protect your business.

06

Cloud Manage & optimize

Manage cloud tools and service providers with automated compliance, monitoring, optimization and governance.

Next Generation **Network Service Portfolio**

Hand-in-hand with CSPs to extract Optimum Value from Digital Network Transformation. We strongly believe in Programmable Network Platforms for Intelligent Network Operations-

01

White Box Services

Proven Skills in delivering Whitebox solution- Cumulus, NVIDIA

02

SDWAN Services

Citrix SD-WAN, FortiGate SDWAN and Cisco Meraki & SDWAN solutions

03

Network Design Services

Cross Site Datacenter designs, Campus LAN WAN Services, Corporate LAN Services and DC migrations

04

Unified Communication

UCaaS - Unified Communication as a services- From softphones, headsets and mobile apps.

05

Application Networking

Internal F5 Team designing complex application deployments

06

Firewall Services

Partnership with all leading Firewall Suppliers including premium partnership with FortiGate

07

Corporate Network Services

Deployment case studies of large corporate Network consolidation and migration solution..

08

Telco Network Products

Comprehensive portfolio of Telco Network Products - Juniper, cisco and others

Delivery Network solution with **Strategic Global Partnership**

Product Portfolio

Global Delivery team

Delivery of 200+ Telco and Enterprise Network Migrations

Professional Services & Consulting Services for Contact Centres

Multi-Cloud Networking with Full-Stack Automation

Certified SMEs

45 Certified Network and IP Security SMEs

100+ Certifications – Cisco/F5/Fortinet/CP and Paulo Alto

Our Managed Network Services include:

- General end-to-end network service management.
- Bespoke expert guidance in network deployment process design to suit your business needs (i.e. SD-WAN Discovery and Adoption Consulting Services).

- Global Network Access and Network Devices Procurement
- Onsite Field Implementation
- Remote Commissioning

- Application Monitoring and Reporting
- Written Analysis and Reporting
- Threshold Monitoring and Alerting

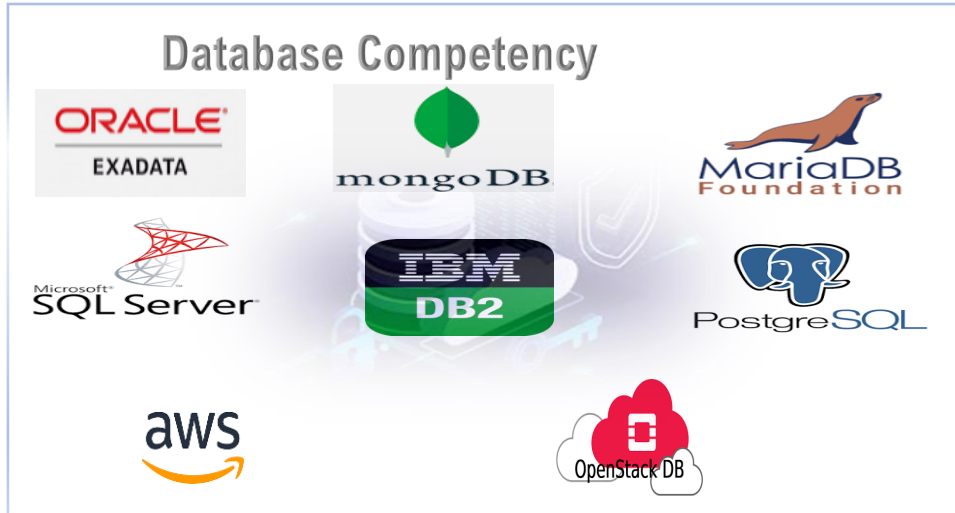

- Remote Monitoring
- Fault and Incident Management
- Onsite Hardware Maintenance Services
- Network equipment ranging from Routers, Switches, Wi-Fi, Firewall, and WAN Optimisation

- Site Survey and Installation
- Proof of Concepts
- Project Management

WAN Services	1.	SD WAN Implementation
		Proven case studies of deployment of SD-WAN Enables Network Transformation Solution for large enterprises using Viptela and Fortinet SDWAN solutions.
DC LAN	2.	White-Box Switching
		NFV-ready Whitebox uCPE Linux Based Network portfolio of Ethernet and InfiniBand technologies. Premium partnership with NVIDIA Cumulus to deliver high-performance computing (HPC).
Virtual Networks	3.	Cloud Network and Virtual Network Computes
		Proven expertise of delivering Cloud network solutions on AWS and AZURE Services. Delivered large programs in deployment and designing of Virtual Network computes.
SDN Deployments	4.	Software defined networking (SDN) solution
		Successful case studies Cisco ACI Solutions, Cisco DNA Center, IBM Cloud Internet Services, VMware NSX, Cradlepoint NetCloud Engine, Nokia Nuage Networks Big Switch Networks.
Automation	5.	Network Automation Suites
		AlgoSec Security Management Solution, Netbrain, VMware NSX, Intelligence, Ansible Core, Ansible Tower, Juniper Apstra, Infoblox and TUFIN.

Database Services- Our Unique approach

We deliver on-premises or cloud workloads Solution with a more secure and complete database solution.

Delivered Case Studies

- Oracle Exadata delivery for a large Telco Customer in Australia.
- Seamless Migration of Oracle to Azure for Retail Customer.
- Quick and Easy Migration of SAP HANA to Azure for Retail Customer
- Case study of automate database migrations in MongoDB.
- VMware Cloud on AWS for SQL Workloads for Enterprise Customer.

01

Solution Designs

Assist Customer picking up the right set of OLTP/OLAP DB options on cloud and on-premise.

02

DB Lifecycle

A Continuous Delivery Solution for your Enterprise to and adapt Database lifecycle changes.

03

Database Consulting

Database assessment and health check services to enable Customer to execute plans for success with precision and confidence.

04

Database Staffing

Dedicated Onsite and Remote DBAs for Your Organization.

05

Database Automation

Identify Customer automation requirements and outline a roadmap for success.

06

Database Security

Maintains Privacy and Compliance, and Extend data security across Multicloud, hybrid, and on-premises environments

Enterprise **Application Services**

Maximize your IT investments through innovative technology solutions

Delivered Enterprise Application Case Studies

- Oracle E-Business Suite upgrades (11i,12x) for large Telco.
- Siebel Upgrades and Migrations for an Enterprise Customer.
- HRIS Selection Case Study for a Large Property Management Firm

01

Oracle Application Services

We add significant value to Oracle projects through proprietary methodologies, Excellence, and innovation that span the entire Oracle application lifecycle.

02

SAP Application Services

Our services span the entire SAP lifecycle - plan, build, manage, improve - with proprietary frameworks, tools, and accelerators developed to put innovation everywhere you need it

03

Microsoft Application Services

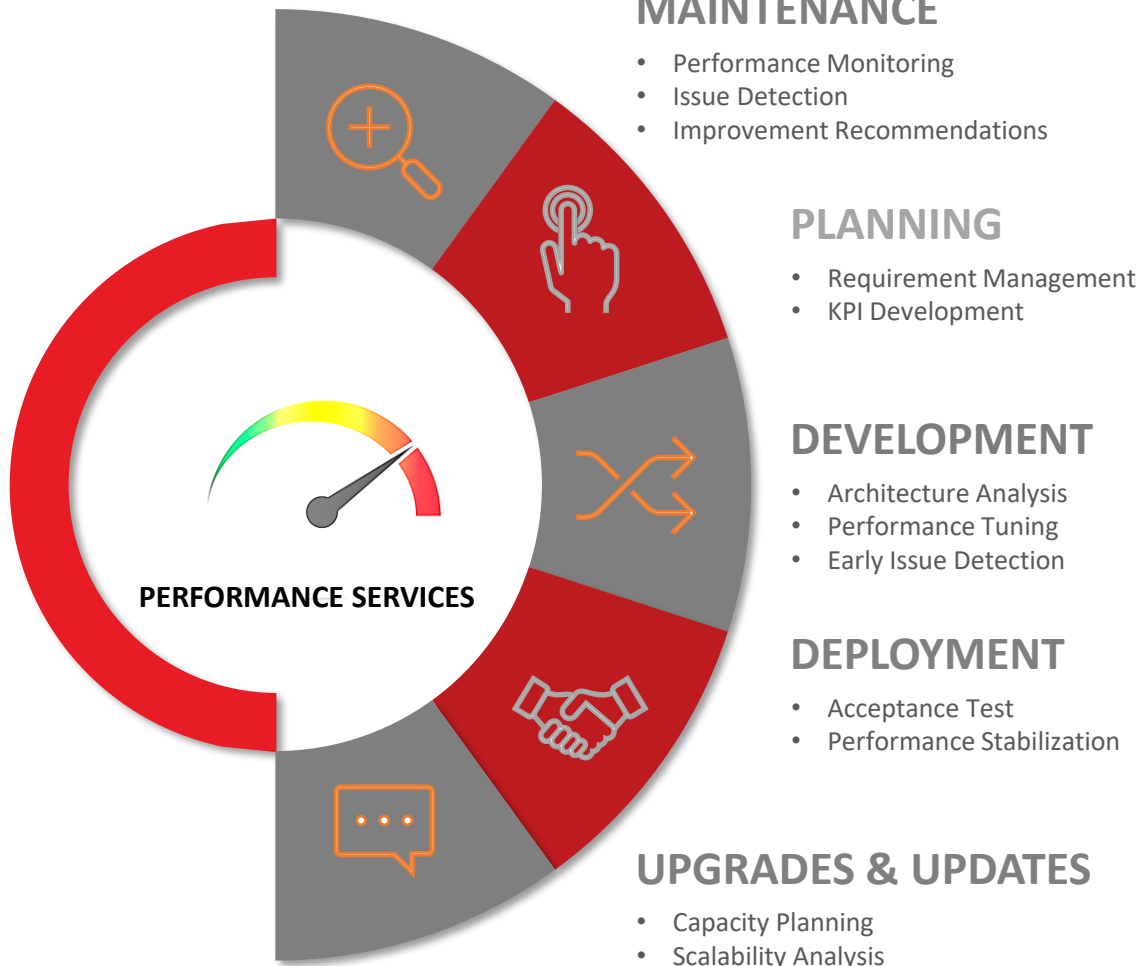

our services cover the full range of Microsoft platform capabilities, from applications and infrastructure to portals and the cloud.

04

CRM Application Services

Expertise and strategic partnerships with major CRM software vendors, to provide tailored CRM solutions that improve customer interactions and enable growth.

Application Performance Testing Services

01

PERFORMANCE TESTING

Evaluating the performance of the system under the expected workload

02

STRESS TESTING

A Continuous Delivery Solution for your Enterprise to and adapt Database lifecycle changes.

03

ENDURANCE TESTING

System can sustain the continuous load for a long duration.

04

SPIKE TESTING

Analyse the behaviour of the system on suddenly increasing the number of users.

05

VOLUME TESTING

Identify Customer automation requirements and outline a roadmap for success.

06

ENDURING AUTOMATION

With enduring automation, our clients can streamline their testing process, thereby reducing the cost of change implementation

Security Capability Deep dive

01

Advanced Threat Management

- SOC (SIEM) aaS
- User-behavior Analytics Incident Response
- Threat intelligence aaS
- Vulnerability Mgmt.

02

Perimeter & Endpoint Security

- Endpoint Security & ETDR
- Web Gateway aaS
- DDoS
- Firewall Management
- Mobile Device Management

03

Identity and Access Management

- Identity Management & Governance
- Privileged Access Mgmt.
- RISK-based authentication (incl. Biometric)

04

Application Security

- Secure DevOps
- Web Application Firewall
- Secure Code Review
- Vulnerability Assessment / Penetration Testing

05

Cloud Security

- Cloud Migration Compliance Audit
- Cloud Access Security Broker
- Cloud Security Assessment

06

Security Consulting

- Risk-based Security Assessment
- Continuous Compliance Assurance aaS
- GRC Automation

07

IoT Security

- Device Security
- IoT Application Security

08

Strategic Consulting

- GDPR services
- AI-based Predictive Risk Management aaS

09

Advanced Security Services

- Consumer Mobile Security
- Network Access Control / BYOD Security

Our Customers

Delivered business-critical services across all major sectors

Telecom Services

TPG Telecom Australia
Optus Australia
Vocus Australia

Banking Services
